We offer our hearts of appreciation for Your love and virtue as we are allowed to live in this very moment. Currently, a pandemic is rapidly spreading throughout the world.

The Novel Coronavirus Pandemic is causing much concern and raising anxieties amongst people and nations. Thus, we offer our hearts and prayers to You to end this pandemic as soon as possible.

Sadly, there are those who have passed away because of this virus, and we put our hands together to pray for their spirits' peace and salvation.

We also pray for those who are infected by the virus to quickly heal and recuperate, in order that they may continue to contribute to society and the world.

We pray for political, economical, and educational reform so that all the anxieties and distrust we have been harboring will dissipate and we will be blessed with societal order.

For those that are suffering in the midst of this pandemic, please allow their faiths to be resurrected and their livelihoods be restored.

Thus, now more than ever, we commit to reviving our hearts of appreciation, having a heart of Kami, and praying for and guiding others.

May we all be awakened to Your truth that “A faith that helps others, helps ourselves.” Use us to help You in this crusade to end this pandemic and bring peace to this world.

It is our sincere prayer that the people of the world will not only have peace of mind; but also live happily, safely, and healthily.
